LOAD RATING	40KG

SPECIAL FITTING TIPS

Refer to photo below. Identify the front and rear straps (rear straps have one notch in top). Please note that there is also a front and rear crossbar. This vehicle has arrows marking roofbar positions in the bodywork of the vehicle. Sit pads in position according to the arrows, and then place straps around door edging, then seat straps onto pads. Ensure that the rack is installed in the correct location and tighten all bolts

SPECIFICATIONS:

Front Bar – 805mm

Rear Bar – 790mm

A – Arrows indicate

B – Arrows indicate
