| VEHICLE BRAND | MAZDA |
| VEHICLE TYPE | 6 – 4DR & 5DR |
| YEAR MODEL | 6/02 ON |
| LOAD RATING | 40KG |

SPECIAL FITTING TIPS

The Mazda 6 has 4 set fixing points to which the crossbars mount to. Slide covers in direction of arrows, remove covers which will expose nutsert. Note that there are front and rear crossbars. Place pad over nutsert hole. Seat crossbars into pads in correct position and tighten all bolts. Do Not Over Tighten Bolts. See picture below.

SPECIFICATIONS:

Front Bar – 85.5cm

Rear Bar – 84.0cm
